Fiat Industrial sponsors Degas exhibition in Turin

Fiat Industrial will be a sponsor of the “Degas: Masterpieces from the Musée d’Orsay” exhibition at the Promotrice delle Belle Arti di Torino which opens today and runs until January 27th, 2013.

This exceptional collection from the Musée d’Orsay in Paris will give the people of Turin the opportunity to see dozens of works by one of the most celebrated French painters of the second half of the 19th Century. This is one of the most representative collections of Degas’ works and reveals the evolution of an artist that had a profound impact on European painting at the dawn of the modern era.

This new cultural initiative, which follows the “Machinery, Inventions and Discoveries” exhibition on Turin’s industrial history at Fiat Industrial Village earlier this year, is a further demonstration of the Group’s long-standing special relationship with the city of Turin and its commitment to raising the cultural profile and attractiveness of the city and the Region of Piedmont.

Fiat Industrial S.p.A. is a global leader in the capital goods sector that, through its various businesses, designs, produces and sells agricultural and construction equipment (CNH Global N.V.), trucks, commercial vehicles, buses and special vehicles (Iveco S.p.A.), in addition to engines and transmissions for those vehicles and for marine applications (FPT Industrial S.p.A.). Present in all major markets worldwide, Fiat Industrial is focused on expanding its presence in high growth markets, including through joint ventures. Further information on Fiat Industrial Group and its businesses is available on the corporate website www.fiatindustrial.com.
